

Ansell

Gloves and Protective
Apparel for Food Handling

ProFood™

ProFood™ disposable blue nitrile gloves set a new standard in comfort, durability, dexterity and cleanliness. Suitable for contact with all fatty foods, they are safe for both food and workers' hands. ProFood™ gloves are 3 times more puncture resistant than latex or vinyl and offer outstanding wear resistance and protection against a wide range of animal fats, oils and detergents.

FEATURES:

- Powder-free for extra comfort;
- High resistance to nicks, cuts and abrasion;
- Textured fingertips for extra grip;
- Superior protection against fats, oils, detergents and chemicals;
- Contains no natural rubber latex.

APPLICATIONS:

- Meat and poultry processing;
- Fish processing;
- Fruit and vegetable processing.

CODE	SPECS	SIZES
92-475	Powder-free, blue, textured fingertips, 100 pack.	S, M, L, XL

FreshTouch™ Clear

FreshTouch™ Clear disposable, powder-free, vinyl gloves are designed for optimal wearer comfort and durability. The premium quality, powder-free vinyl construction makes FreshTouch™ Clear comfortable and clean with great dexterity and touch. Ansell suggests using FreshTouch™ Clear for handling prepared foods to reduce the risk of cross food contamination.

FEATURES:

- Powder-free for extra comfort;
- High quality vinyl construction;
- Easy on, easy off;
- Ambidextrous design.

APPLICATIONS:

- Delicatessens;
- Cold food catering;
- Restaurants, cafes and canteens.

CODE	SPECS	SIZES
840	Premium quality, powder-free, clear vinyl, 50 pack.	S, M, L
850	Premium quality, powder-free, clear vinyl, 100 pack.	S, M, L

FreshTouch™ Blue

FreshTouch™ Blue is a premium quality, powder-free, disposable vinyl glove particularly designed for optimal wearer comfort, durability and product visibility. The powder-free vinyl construction offers comfort, cleanliness and dexterity, and being powder-free there is no risk of corn starch contamination. Ansell recommends using FreshTouch™ Blue exclusively for handling raw foods (ie: cold meats, chicken, etc.) to reduce the risk of cross food contamination.

FEATURES:

- Powder-free for extra comfort;
- High quality vinyl construction;
- Easy on, easy off;
- Ambidextrous design.

APPLICATIONS:

- Chicken shops;
- Delicatessens;
- Restaurants and cafes.

CODE	SPECS	SIZES
851	Premium quality, powder-free, blue vinyl, 100 pack.	S, M, L

Food Safe™ Clear

Food Safe™ Clear, economically priced, disposable gloves are designed for large scale food operations where a lightly powdered clear glove is required. Food Safe™ Clear is ideal for high volume food handling or processing situations where frequent changes of gloves are needed.

Ansell recommends using Food Safe™ Clear when handling prepared foods to reduce the risk of cross food contamination.

FEATURES:

- Lightly powdered for easy on and off;
- Ambidextrous design;
- Great dexterity and touch.

APPLICATIONS:

- Delicatessens;
- Food preparation and handling;
- Pastry and cake handling;
- Sandwich making;
- Dairy processing.

CODE	SPECS	SIZES
870	Lightly powdered, clear vinyl, 100 pack.	S, M, L, XL
871	Lightly powdered, clear vinyl, 200 pack.	S, M, L, XL

Food Safe™ Blue

Food Safe™ Blue disposable gloves are the ideal choice for large scale food operations requiring cost effective gloves. Economically priced, Food Safe™ Blue are perfect for high volume situations which require frequent changes of gloves. Ansell recommends using Food Safe™ Blue when handling raw foods to reduce the risk of cross food contamination.

FEATURES:

- Lightly powdered for easy on and off;
- Ambidextrous design;
- Great dexterity and touch.

APPLICATIONS:

- Canteens;
- Red and white meat processing;
- Fish handling;
- Poultry processing.

CODE	SPECS	SIZES
874	Powdered, blue vinyl, 100 pack.	S, M, L, XL

Conform™

Conform™ disposable gloves provide a high degree of dexterity with the strength and comfort of 100% natural rubber latex*. Conform™ are cool and comfortable to wear and provide superior flexibility, dexterity and grip.

FEATURES:

- Latex powdered;
- Contoured fit;
- Designed for strength and longevity.

APPLICATIONS:

- Light duty maintenance and clean-up;
- Food preparation, processing and handling;
- Quality control.

CODE	SPECS	SIZES
844	Lightly powdered, latex, 100 pack.	S, M, L, XL

*Natural rubber latex may cause allergic reactions in some people.

Poly-D™

Poly-D™ disposable gloves are an ultra lightweight glove that feature a sheer-gauge poly film which provides a sense of touch that is close to the bare hand. Particularly suited to situations which require frequent changes of gloves, Poly-D™ delivers good performance at a very economical price.

FEATURES:

- Powder-free and sulphur-free polyethylene;
- Budget priced;
- Ambidextrous design.

APPLICATIONS:

- Sandwich shops;
- Light duty;
- Fresh food preparation.

Food Hygiene and Ansell

If you are involved in the food industry you will appreciate the importance of food safety and hygiene. This is where Ansell can help. With a comprehensive range of disposable gloves and protective apparel designed specifically for food handling – Ansell has a glove that is right for you. Ansell has disposable gloves available in different materials such as; Nitrile, Vinyl, Natural rubber latex and Polyethylene. All gloves are manufactured to the stringent Ansell quality that you know and trust.

Ansell disposable gloves are made with component materials that comply with FDA food regulations and European legislation (89/109/EEC) for gloves intended to come into contact with food stuffs.

Wearing barrier protection in food handling and food service establishments is important in minimising the spread of bacteria and protecting consumers. For further information, phone Ansell.

Glove Dispensers

Ansell's Easy Clean glove dispenser makes storage of disposable gloves a treat. The dispenser can be wall mounted so that glove boxes are not stored on benches and food preparation areas. The dispenser is designed with hygiene in mind, it can be washed with warm water and has no joins or cracks which can trap moisture and harbour bacteria. Additionally, with an Easy Clean dispenser gloves can be taken from the box quickly and with one hand.

FEATURES:

- Strong acrylic construction;
- One piece design for easy cleaning;
- Suits Food Safe™ Blue & Food Safe™ Clear, Fresh Touch™ and Conform™ packs;
- Wall mounted by two fasteners.

APPLICATIONS:

- Storage of gloves away from contamination sources such as food preparation benches.
